We have the honor to invite you to participate in the High-level Meeting, World Conference on Construction and Building Technology, a two-day conference in Barcelona City We are excited to welcome you back to our in-person conferences this year.

BuildTech Week 2024 is the premier event for the built environment sector which showcases the latest smart solutions and productive technologies across the entire building life-cycle. Innovations in designs, materials and technologies will assemble under one roof to redefine and reformulate the Public, Industrial, Corporate and Residential home infrastructure with a sheer focus on enhancing the urban landscape and skyline. It is the one-stop platform where over 300 international and regional brands will gather to engage with key industry stakeholders across the regional Built Environment value-chain. It provides a forum for researchers, design professionals, product manufacturers, builders, developers, and more to discuss opportunities and challenges to advance the quality of and introduce innovations in residential construction.

Through a dynamic combination of academic and industry speakers, informative case studies and an exhibition, delegates will have the opportunity to learn more about the growing trends and changes happening within the industry. The conference looks to the future and explores the elevated innovations that are making high-rise buildings greener, safer and inclusive by offering more public access opportunities. It brings together industry leaders from all facets of the residential and commercial constructing sector — architecture, design, commercial construction, engineering, real estate development, home building, and remodeling.

For all these reasons, we cordially invite you to join our BuildTech Week 2024 and would be very glad to welcome you in Barcelona!

Scientific Committee
BuildTech Week 2024

- Architectural Design and Planning
- Civil and Structural Engineering
- Material Science, Nanotechnology
- Precast Construction Technology
- Building Information Modeling
- Architectural Building Systems
- Marine Construction
- Fabrication Engineering, Construction Process
- Building Sustainable Future Cities
- Smart and Sustainable Construction
- Resilient Building Design and Materials
- Future of Construction
- Digital Transformation in Construction
- Data-Driven Construction

BuildTech Week 2024 is structured as the preeminent construction conference developed for mid- to senior-level professionals who work in any of the building and construction sectors. Impactful plenary sessions and compelling panel discussions from top legal, consulting, and leaders of construction industries including building automation systems, sustainable building and construction technologies, software for planning and construction, safety and environmental technology, and construction machinery, tools and materials, business, and economic challenges and opportunities in today's construction industry.

Target Industry

Building & Construction

Manufacturing

Telecommunication

Real Estate

Healthcare

Intelligent Buildings

Design and Project

Networks

Construction Supply Chain

Response & Supply Chain

Project Delivery

Power, Oil & Gas

Utilities

Energy & Water

Maritime

Trade Associations

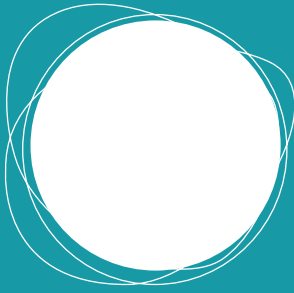

Government Agencies

Statutory Boards

Transportation & Logistics

Who Should Attend?

Students, Academicians, Researchers, Post-Doctoral Fellows, Architects, Builders, Building Merchants, Building Services, Engineers, Business Development, Procurement & Purchasing, Civil & Consulting Engineers, Civil Estimators, Contractors, Consultants, Developers, Designers, Facilities Managers, Government, Technology Providers, Investors, Importers & Distributors, Land & Quantity Surveyors, Project Managers, Quantity Surveyors, Real Estate Developers, Strategic Planning, Structural Engineers

Bert Declerck
bd Projects BV, Belgium

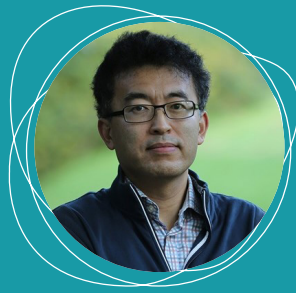

Sikiru A. Ganiyu
Teesside University, UK

Dragan Milašinović
University of Novi Sad, Serbia

Fatih Eren
Istanbul Technical University, Turkey

Chenfeng Li
Swansea University, UK

Sille Pihlak
Estonian Academy of Arts,
Estonia

Tan Ngoc Nguyen
Sejong University, South Korea

The venue of Buildtech Week 2024 Barcelona; a truly enchanting city With its rich culture, excellent weather all-year-long, outstanding palette of venues and developed infrastructure; Barcelona is a perfect location for organising any kind of event. From conferences and exhibitions, to corporate events and meetings. A combination of beautiful architecture, Mediterranean cuisine and Spanish culture that creates a perfect backdrop for your event. Moreover, Barcelona's cultural and culinary offer is rich and diverse, creating the perfect destination to satisfy even the most demanding guests. A seaside city packed to the brim with stunning architecture, rich culture, and a laid-back vibe that's hard to find in most tourist destinations, Barcelona is resoundingly magical.

Barcelona is a city whose personality bursts at every natural seam. The capital of Catalonia, one of Spain's 17 autonomous communities, Barcelona is also known as the country's most progressive city, always on the cutting-edge of European art, fashion and cuisine. What's more, its energy is unparalleled, with hundreds of bars, restaurants, cafes and clubs... so be prepared to party 'til dawn and hit the streets with the rest of the city's nearly 2 million inhabitants. But Barcelona is also the city of Picasso and Miro. It's also a home for gorgeous beaches, serene parks and gardens, uniquely preserved medieval historic quarter Barri Gotic, fine museums and elegant restaurants with gastronomical delights.

The venue of Buildtech Week 2024, Barcelona is a known entrepreneurial and business-friendly city. Thanks to its long business and commercial tradition, Barcelona is today one of the most important cities in Europe for doing business.

- 50+ inspiring speakers across 12 conference tracks including Future of Construction, Architecture, BIM & Digital, Real Estate, Facilities Management, Sustainability Construction
- Bringing together the best industry minds, leading tech companies, and largest names in construction for a singular two-day event, BuildTech will be your homebase to make critical connections, learn from the experts, and engage like never before.
- 100+ registered visitors from contractors, architects, civil engineers, realtors, developers, government and construction professionals
- Hub of full-scale innovation, learning, networking, and business for the entire industry, from construction robotics and prefab modeling
- Promoting innovation and growth in the building and construction technology industry in Europe and beyond.
- Impactful plenary sessions and compelling panel discussions from top industrialists, consulting, and leaders of construction industries.
- Meet with peers and professionals looking to learn, connect, and collaborate
