We have the honor to invite you to participate in the High-level Meeting, 2nd World Conference on Construction and Building Technology, a two-day conference in Madrid, Spain City We are excited to welcome you back to our in-person conferences this year.

BuildTech Week 2025 is the premier event for the built environment sector which showcases the latest smart solutions and productive technologies across the entire building life-cycle. Innovations in designs, materials and technologies will assemble under one roof to redefine and reformulate the Public, Industrial, Corporate and Residential home infrastructure with a sheer focus on enhancing the urban landscape and skyline. It is the one-stop platform where over 300 international and regional brands will gather to engage with key industry stakeholders across the regional Built Environment value-chain. It provides a forum for researchers, design professionals, product manufacturers, builders, developers, and more to discuss opportunities and challenges to advance the quality of and introduce innovations in residential construction.

Through a dynamic combination of academic and industry speakers, informative case studies and an exhibition, delegates will have the opportunity to learn more about the growing trends and changes happening within the industry. The conference looks to the future and explores the elevated innovations that are making high-rise buildings greener, safer and inclusive by offering more public access opportunities. It brings together industry leaders from all facets of the residential and commercial constructing sector — architecture, design, commercial construction, engineering, real estate development, home building, and remodeling.

For all these reasons, we cordially invite you to join our BuildTech Week 2025 and would be very glad to welcome you in Madrid, Spain!

Committee Members
BuildTech Week 2025

- Modern Construction & Civil Engineering
- Architectural Design and Structural Engineering
- Intelligent and Sustainable Architecture
- Environmental and AI in Construction
- Infrastructure and Advanced Materials
- New Technologies and Green Building
- Towards Sustainable Futures
- Materials and Disaster Mitigation
- Emerging Technologies in Construction
- Bridging the Virtual and Natural
- Digital Revolution in Construction
- Advanced Transportation Systems

BuildTech Week 2025 is structured as the preeminent construction conference developed for mid- to senior-level professionals who work in any of the building and construction sectors. Impactful plenary sessions and compelling panel discussions from top legal, consulting, and leaders of construction industries including building automation systems, sustainable building and construction technologies, software for planning and construction, safety and environmental technology, and construction machinery, tools and materials, business, and economic challenges and opportunities in today's construction industry.

Target Industry

Building & Construction

Manufacturing

Telecommunication

Real Estate

Healthcare

Intelligent Buildings

Design and Project

Networks

Construction Supply Chain

Response & Supply Chain

Project Delivery

Power, Oil & Gas

Utilities

Energy & Water

Maritime

Trade Associations

Government Agencies

Statutory Boards

Transportation & Logistics

Who Should Attend?

Architects

Builders

Building Merchants

Building Services

Business Development

Procurement & Purchasing

Civil & Consulting Engineers

Civil Estimators

Contractors

Consultants

Developers

Designers

Facilities Managers

Government

Technology Providers

Investors

Importers & Distributors

Land & Quantity Surveyors

Project Managers

Quantity Surveyors

Real Estate Developers

Strategic Planning

Structural Engineers

Students, Academicians, Researchers,
Post-Doctoral Fellows

OCM MEMBERS

Diego Freire Coloma
CEO, Member of the Executive
Commission, Spain

Faisal Arain
President, Canada

Isabella Trindade
Lecturer, US

Fitnat Cimşit Koş
Associate Professor, Turkey

KEYNOTE SPEAKERS

Xavier Vilalta
Founder & Director, Spain

Dale Sinclair
Director & Head, UK

Juan Rey,
Founder & CEO, Spain

Manuel Romana
Professor, Spain

Artur Bressanelli
Teixeira Researcher, Spain

Marta Parra Casado
Founding member, Spain

Chelo Garcia Lara
ARB, UK

Monica Lucas
Section Manager, Norway

Maria Makri
BIM Coordinator, Norway

Lilian Ho
Senior BIM Manager, UK & I

Isabel Calzas Hernández
General Director, Spain

Marina Machado
Project Manager, Netherlands

Pablo van den Bosch
Co-founder & Board Member,
Netherlands

Quisco mena
Founder & technical director
Spain

Sureerat Polsilapa
Assoc. Professor, Thailand

Alozie Oluonu
Director, UK

Xavier Aguiló i Aran
International Managing Director
London

Leonardo da Silveira Pirillo
Injosa Professor, Brazil

Victoria Jones
Lead Digital Engineer, UK

Antonio Durán Bautista
Digital Innovation Director, Spain

Juan Coll-Barreu
Cofounder & Director, Spain

Luis Sans Llopis
CEO and creative director, Spain

Matteo Orsi
Head of BIM, UK

Alessandro Macchi
Director, Italy

Alfonso Monedero
Head of BIM, London

Claudio Vittori Antisari
CEO, Italy

Isabella Bhoan
Senior Landscape Architect, UK

César Frías Enciso
Creative Director, Spain

Madrid is the capital and largest city of Spain. The population of the city is roughly 3.3 million and the entire population of the Madrid metropolitan area is calculated to be around 6.5 million. It is the third-largest city in the European Union, after London and Berlin, and its metropolitan area is the third-largest in the European Union after London and Paris.

Madrid has a lot of interesting attractions that offer both culture and amusement.

The city is full of great monuments, like the royal palace, the Plaza Mayor or the many statuettes, and for people interested in art, the museums Del Prado, Reina Sofia or Thyssen have some of the most fantastic collections of famous Spanish painters like Velazquez, Goya, Picasso or Miro.

Madrid stands out as a major cultural capital in Europe, renowned for its vibrant art and culture scene. The city's temperate weather transitions into a lively nightlife with bustling tapas bars, live music venues, and town squares that stay vibrant well past midnight. Rich in museums, Madrid showcases both classical and modern art, complemented by a dynamic theatre district and engaging neighborhood festivals. Unique experiences include the Temple of Debod, an authentic Egyptian temple near Plaza de España. With top-ranked museums, a thriving sports scene, and the largest rock-climbing arena in Spain, Madrid is a hub for both cultural exploration and active pursuits.

The venue of Buildtech Week 2025, Madrid is a known entrepreneurial and businessfriendly city. Thanks to its long business and commercial tradition, Madrid is today one of the most important cities in Europe for doing business.

- 50+ inspiring speakers across 12 conference tracks including Future of Construction, Architecture, BIM & Digital, Real Estate, Facilities Management, Sustainability Construction
- Bringing together the best industry minds, leading tech companies, and largest names in construction for a singular two-day event, BuildTech will be your homebase to make critical connections, learn from the experts, and engage like never before.
- 100+ registered visitors from contractors, architects, civil engineers, realtors, developers, government and construction professionals
- Hub of full-scale innovation, learning, networking, and business for the entire industry, from construction robotics and prefab modeling
- Promoting innovation and growth in the building and construction technology industry in Europe and beyond.
- Impactful plenary sessions and compelling panel discussions from top industrialists, consulting, and leaders of construction industries.
- Meet with peers and professionals looking to learn, connect, and collaborate
